PROFILE

A proactive and results-driven professional with a solid background in IT and practical experience in web development , along with a strong enthusiasm for creative problem-solving and strategic planning. Proficient in utilizing contemporary technologies such as React.js , Python, and JavaScript to create innovative solutions.

WORK EXPERIENCE

SCREEN MONITORING SYSTEM

Developed a real-time screen monitoring system for organizational use, enabling live employee screen view, activity tracking, alert generation, attendance logging, and task management. Integrated features include video stream handling, role-based access (Admin, Municipal Staff, Employee), interactive dashboards, and data analytics using modern web technologies (React, Ant Design, Django backend).

JOBKART - JOB PORTAL SYSTEM

Built a feature-rich job portal with user login, resume upload, job posting, filtering, and application tracking using React, Django, and MySQL. Employers can post jobs; candidates can apply and track application status.

SHOPNEST – FULL-STACK E-COMMERCE WEB APP

Built a complete e-commerce platform with product listings, cart system, order management, secure authentication, and admin dashboard using React, Django, and MySQL. Integrated secure payment gateway, search & filter functionality, and responsive UI for users and admins.

EXPERIENCE

Intern-Full-stack Developer
Yashvitech Pvt.Lmd

Duration : 6 Months
